Creator: Barnes, Sharon

Title: The HistoryMakers® Video Oral History Interview with Sharon Barnes,

Dates: August 16, 2012

Bulk Dates: 2012

Physical Description: 6 MOV HD video files (2:40:14).

Abstract: Chemist Sharon Barnes (1955 - ) created the process and apparatus for contactless measurements of sample temperature. She is also the laboratory director at the Dow Chemical Company. Barnes was interviewed by The HistoryMakers® on August 16, 2012, in Houston, Texas. This collection is comprised of the original video footage of the interview.

Identification: A2012_192

Language: The interview and records are in English.

Biographical Note by The HistoryMakers®

Biologist and chemist Sharon J. Barnes was born on November 28, 1955 to Selena and William Jefferson McDonald in Beaumont, Texas. She attended Silsbee High School where she received three scholarships to attend college. In 1978, Barnes received her B.S. degree in biology-chemistry and clinical laboratory science. During her time in college, she interned at clinical laboratory science program for the Baptist Hospital of Southeast Texas.

After college, Barnes began working as a medical technologist in the clinical laboratory at the Waco Veterans Administration Medical Center. During this same year, she received her certification as a clinical laboratory scientist from the American Society of Clinical Pathologists. In 1981, Barnes obtained a new position at Brazosport Regional Health Center where she worked as an assistant lab director. Six years later, she pursued her interest as a chemist at the Dow Chemical Company serving as a special chemistry lab supervisor. A year later, she received her certification as clinical laboratory director from the National Certification Agency and became the Clinical Laboratory Director at Dow Chemical Company in the Occupational Health Department. In 1991, Barnes obtained a U.S. Patent for a new application in Infrared Thermography Technology. She was a member of a team of five, including one other African American, who invented the process and apparatus for contactless measurements of sample temperature. Barnes has also worked as a QA/QC chemist in research & development in the Texas Analytical and Environmental Lab. In 1996, Barnes became Dow Chemical Company’s training specialist as well as manager for site wide training and development. She eventually assumed the role as human resource partner and consultant. In 2005, she received her M.B.A. in human resources management from the University of Phoenix and later became a human resources associate director for the performance plastics division after serving as a functional HR Partner for R&D and the site HR Director at Seadrift Operations.

In 1991, Barnes was named a Dow Texas Inventor; she has also received the Boy Scouts’ Outstanding Scouter Award twice from Dow Chemical Company; and she was selected as one of the 50 Most Influential Blacks in
Sharon J. Barnes was interviewed by The HistoryMakers on August 14, 2012.

**Scope and Content**

This life oral history interview with Sharon Barnes was conducted by Larry Crowe on August 16, 2012, in Houston, Texas, and was recorded on 6 MOV HD video files. Chemist Sharon Barnes (1955 - ) created the process and apparatus for contactless measurements of sample temperature. She is also the laboratory director at the Dow Chemical Company.

Processing Information

This interview collection was processed and encoded on 8/5/2013 by The HistoryMakers® staff. The finding aid was created adhering to the following standards: DACS, AACR2, and the Oral History Cataloging Manual (Matters 1995).

Other Finding Aid

A Microsoft Access contact database and a FileMaker Pro tracking database, both maintained by The HistoryMakers®, keep track of the administrative functions involved in scheduling, researching, and producing the interview.

Detailed Description of the Collection

Series I: Original Interview Footage, August 16, 2012

Video Oral History Interview with Sharon Barnes, Section A2012_192_001_001, TRT: 1:29:15 2012/08/16
Sharon Barnes describes her family history. Her mother, Selna Mae McDonald, was of French and Caddo Indian lineage. Her father, William Jefferson McDonald, was from Silsbee, Texas, and served in the Korean War. While she was born in Beaumont, Barnes was raised in Silsbee, Texas. She has early childhood memories of living near her grandparents, who owned a grocery store. Barnes also talks about her involvement in the First Baptist Church. One of four siblings, Barnes talks about her family life in Silsbee. She tells about her first exposure to science when she fell off the staircase railing and lost consciousness. Her mother took her to see Dr. Pastashki, who became her mentor.

African American families--Texas.
African American business enterprises--Texas--Silsbee.
Children's accidents.
Mentoring in medicine.

2012/08/16

Sharon Barnes describes her education in Silsbee, Texas. She attended Frank Robinson Elementary School through third grade, and then attended Reed-Turrentine Elementary School. Barnes talks about her teachers, Mr. Hilliard Lewis, Ms. Hattie Blackmon, Ms. Annie Buard, and Ms. Jackie Reed and remembers her experience with integration at Reed-Turrentine. Barnes loved science from a young age. She attended Silsbee High for high school, where her math teacher, Mr. Ronnie Nash, and her biology teacher, Ms. Sherry Woodard encouraged her interest in science.

African Americans--Education--Texas--Silsbee.
School integration--Texas--Silsbee.
Teachers--Texas--Silsbee.

2012/08/16

Sharon Barnes talks about her college life. While she had some initial interest in Texas Agricultural and Mechanical University, Barnes decided to attend Baylor University, where several of Baylor’s professors influenced her. These professors include Dr. A.G. Pinkus, Dr. Eldridge, Dr. Wydner, and Dr. Packard. Barnes also describes meeting her husband, Ronald Barnes, at a recruiting party for the football team. While her experience at Baylor was positive, Barnes experienced discrimination. She suspects that this may have been a result of forced integration. Near the end of her college experience, Barnes became a clinical laboratory intern. Following her internship, Barnes worked in the laboratories of the Waco Veteran’s Administration Medical Center.

African American college students--Texas.
Baylor University--Faculty.
African American college students--Courtship--Texas.
Discrimination in higher education--Texas.
Waco VA Medical Center.

2012/08/16

Sharon Barnes married her husband, Ronald, in 1981. They had two children, Amber and Ronald II. Barnes then became a certified clinical laboratory
scientist. While she was working for Dow Chemical Company, Barnes discovered a new use for the infrared thermometer. She developed way to use it to check the temperature of urine samples collected for drug testing. This test helps to ensure that the sample had been from the individual submitting the sample. This technology also served as the basis for the infrared ear thermometer. Encouraged by a coworker, Barnes started to work with Human Resources, later becoming a Human Resources Manager. Barnes also served on the city council of Lake Jackson, Texas.

African Americans--Marriage.
African American families.
Dow Chemical Company--Employees.
Thermometers.
City council members--Texas.

Video Oral History Interview with Sharon Barnes, Section A2012_192_001_005, TRT: 5:28:51 2012/08/16

Sharon Barnes talks about the loss of her parents. Her father, William Jefferson McDonald, passed away in 2000. Barnes’ mother, Selna Mae McDonald, passed away in 2001. Her father was able to see her work and serve her city of Lake Jackson, Texas. Barnes also served as the National Secretary for NOBBCHE. In 2004, Barnes was named Baylor’s Most Distinguished Alumnae and received the Black Alumnae Award. In 2000, Barnes was appointed by the governor to serve on the Texas Medical Board, which oversees physicians in Harris, Brazonia, and Galveston counties. In 2004, Barnes was named one of the 50 Most Influential Blacks in Research by Engineer.com. Barnes also talks about her mentors at Dow Chemical Company, Larry J. Washington and Effie Dorsey. Barnes would like to be remembered as loving Christian woman that helped people as much as she could.

Parents--Death.
National Organization for Black Chemists and Chemical Engineers.
Baylor University--Alumni and alumnae--Awards.
Texas--Officials and employees--Selection and appointment.
Mentoring in science.

Video Oral History Interview with Sharon Barnes, Section A2012_192_001_006, TRT: 6:11:27 2012/08/16

Sharon Barnes describes photos of herself and her family. Barnes also shares a newspaper ad from her campaign and images from several Dow Chemical Company publications.

Photograph collections.
Political campaigns--Texas.
Dow Chemical Company.
